PAVE THE WAY FOR A SUSTAINABLE FUTURE

RSG Contract engaged in sustainability as we design and manufacture floor globally. Deeply embedded in our vision, we incorporated eco-design into each step of its production process and meets the requirements of various environmental labels. It is to develop innovative flooring solutions for better living spaces. With that in mind, we **hope to create something valuable for our customers and enhance their wellbeing**, whilst respecting the environment.

CRI Green Label Plus

Green Label Plus is an independent testing program that identifies carpet, adhesives, and cushion with very low emissions of VOCs to help improve indoor air quality. It is an outgrowth of, and enhancement to the CRI Green Label Testing program.

SIRIM Eco-Label

The SIRIM Eco-Labeling Scheme is a National testing program of Malaysia that identifies any products with low emissions of VOCs and formaldehyde to help improve indoor air quality. This program is tested under SIRIM QAS International, which is a member of the Global Ecolabelling Network (GEN). GEN is a non-profit international association of third-party, environmental performance labelling organizations. SIRIM QAS International's membership in GEN attests to the credibility of SIRIM Eco-labelling Scheme and puts it at par with the eco-labelling schemes of other member countries.

KATRI Eco-Label

KATRI known as Korea Apparel Testing & Research Institute provides consumer products testing and inspection service to major manufacturers and retailers. While KATRI Eco-Label is a program that identifies products with low emissions of VOCs.

CE Marking

The letters 'CE' appear on many products traded on the extended Single Market in the European Economic Area (EEA). They signify that products sold in the EEA have been assessed to meet high safety, health, and environmental protection requirements. CE marking also supports fair competition by holding all companies accountable to the same rules. By affixing the CE marking to a product, a manufacturer declares that the product meets all the legal requirements for CE marking and can be sold throughout the EEA. This also applies to products made in other countries that are sold in the EEA.
